# RESPONSIBLE INNOVATION

---

We source our materials responsibly, using 100% recyclable materials. The majority of the material composition comes from post-consumer plastics, which means you're not forwarding the environmental bill to the next generation.

Soundcore® is 100% VOC free (Volatile Organic Compound), which means from day one there will be zero odorous fumes, and zero air toxicity. It's also ASTM E84: Class A fire rated and offers resonant insulation to build a more comfortable environment.

All of these check-boxes make up a surprisingly lightweight, soft-touch panel that we're incredibly proud of.

## ABOUT US

---

We see your vision.

We internalize your program.

We design curated architectural solutions.

CSI Creative builds around the convergence of  
**Architectural Design** and **Industrial Design**

Our AD studio sees the grand scheme. We solve your project holistically, and enhance the entire space as a singular experience.

Our ID studio sees the missing pieces. We design curated products into your program that solve the specific needs of your space.
