# GRID NOTCHED GRID 002 GRD-NCH-002

**CSI** Creative

PRODUCT GUIDE

WOOL FELT 100% organic premium design felt.

VOC FREE CDPH Standard Method V1.2 School Classroom and Private Office Compliant.

LOW MAINTENANCE A light dusting is all you'll ever need.

POWERFUL ACOUSTICS High Noise Reduction Coefficient.

**CUSTOM SIZING** Custom-sized products arrive installation ready.

TACTILE EXPERIENCE

Soft, plush felt delivers unbeatable touch

experience.

**FIRE-SAFE** ASTM E84: Class A tested and compliant.

SUSTAINABILITY 100% organic wool is harvested without animal harm.

LEAD TIME 2-4 weeks with vast color options.

### SPECIFICATIONS

PRODUCT ID	GRD-NCH-002
CONTENT	PoshFelt® 100% organic wool design felt
DURABILITY	Impact resistant, shock absorbant
WEATHERING	Non-deteriorating, non-hygroscopic, colorfast
MAINTENANCE	Clean with vacuum or light dusting
WARRANTY	Comes with industry-leading standard warranty
ENVIRONMENTAL	100% biodegradable/compostable, contains no formaldehyde, 100% VOC free, no chemical irritants, and free of harmful substances
INSTALLATION	CSI Installation Systems are product specific (see Installation page)
ACOUSTICS	0.70 NRC
FLAMMABILITY	ASTM E84: Class A

#### EDGE

Exposed or covered

## INSTALLATION

Grid installation systems are designed according to site conditions, and maximize efficiency of installation. Each solution respects the integrity of the project design, budget, and installs easily with simple tools.

#### **DROP IN SYSTEM**

Drop-in tiles are one of the fastest and most efficient methods of installation that requires no tools. Done by inserting the panel through the opening of an existing ACT grid, and laying the panel flat to rest on the grid structure.

#### **MAGNETIC SYSTEM**

Magnetic attachments work similarly to Drop-In tiles, however instead of resting above the grid track, magnets suspend the panel tight against the metal grid from below. This allows the product to fully conceal the ACT grid for a more seamless aesthetic.

### SITE CONDITIONS

#### MODULAR SYSTEM CONFIGURATION

Modular systems can be configured to fit site conditions when considered during the design phase.

Optimized configurations save on material costs, provide a hassle-free installation, and reduce labor costs.

#### CUSTOMIZED FABRICATION PER SITE CONDITION

When engaged in the design phase, we fabricate custom ACT Grid modules fitted to the shape of your space.

This reduces the need for on-site cutting by installation crews, saving money in material and labor.

#### **MEP INTEGRATION**

The modular rail system allows for easy mechanical, electrical and plumbing integration. During design development, we coordinate with your team of MEP consultants to uphold your construction schedule.

### SUSTAINABILITY

#### WHY WOOL?

Wool has a strong track record. As in, thousands of years strong. The first instances of wool as a textile date back to 1500 BC, and for great reason: wool is a renewable source of workable fiber, harvested without any harm to the animal.

Wool is cleaned and refined into a more cooperative felt product with an array of natural features, including wrinkle resistance, anti-static, high burning point, insulative properties, shock resistance—the list goes on.

#### MATERIAL CONSTRUCTION

100% organic Merino or Karakul Wool

#### **PRODUCT CERTIFICATIONS**

ASTM E84: Class A, VOC Free (CDPH Standard Method V1.2)

### OUR MISSION

#### **EXPERIENTIAL SPACES**

Our goal is to create spaces that feel better.

It's easy to visualize a space with architectural acoustics, but even the most detailed renderings couldn't convey the experience of actually being there. When sound is properly controlled within a space, it creates focus and calmness that you can actually feel. We want to help you turn off the droning machinery in the back of your mind. We fabricate custom solutions that visually suit your space while building towards a more soothing holistic experience. This creates spaces where people want to be—where they want to work, where they want to sleep, exercise, create, study, and relax.
